WORK EXPERIENCE

Pleth, LLC

Jul. 2018 - Present

Web Developer / Solutions Architect

Jonesboro, AR

- Design, development, and maintenance of WordPress and Drupal sites. Duties include front-end and back-end development as well as troubleshooting and maintaining updates for over 120 CMS-backed websites. Oversight of pre-launch and post-launch procedures for new websites.
- AWS Cloud administration, including management of VPS and VPC environments, as well as creating and implementing solutions using AWS services to meet client requirements.
- Unix-based systems deployment, maintenance, and troubleshooting using LAMP architectures (CentOS, Amazon Linux, Ubuntu). Very comfortable with the command line. On call 24/7.
- Coordination, planning, and scheduling for a remote development team, managing numerous git repositories and ensuring best practices are applied to the development process.

Arkansas Pondstockers, Inc.

Aug. 2013 – Jul. 2018

Web Developer / IT Support

Harrisburg, AR

- Design, development, and maintenance of company website and social media.
- Google AdWords and MailChimp campaign administration.

VOLUNTEER PROJECTS

Poinsett County 4-H Club

2019 - Present

- Website design and development for local chapter, also coordinating other creative professional volunteers to increase the digital availability and marketability of the club.

AState BEST Robotics

2011 – 2013

- Camp robotics programming instructor, robotics equipment inventory and maintenance. Coordinated event-day activities.

EDUCATION

Arkansas State University

2011 – 2013

Studying BS, Computer Science

- Senior, 30 credits left until graduation.
- Project Lead, student team assembled to develop app for a local newspaper.
- Wish to return eventually given the opportunity, but so far haven't seen a need to complete.
